## New Album: Total Information Awareness

National Security Band formed in Dallas, TX in 2014. Since then, the indie duo set to work on writing their debut album, "Total Information Awareness". The album was recorded at Catalyst Recording in Charlotte, NC.

Fans of the band describe their music as "A Heavy Pink Floyd" or "loosely influenced by Tool". Nobody has been able to pinpoint a similar artist but additional influences also include Black Sabbath, Nirvana, and Interpol.

The album will be available November 3, 2017 on iTunes, Spotify, Pandora, as well as many other online streaming sites.
